

Building Commences on New Hawkes Store

The contract for building of the new store for Herman Hawkes has been given to the North End Lumber Co. and building operations will be under supervision of W. T. Pitt. Work on the foundation will start this week.

The full dimension of the building will be 32x132 and the construction will be of brick, with a tar and gravel roof. The store will be 23x84 with a flour and feed room 9 foot wide running the full length of the store. Behind the store will be a warehouse 32x47 foot.

It is expected to have the building ready for occupation within two months.

W.C.T.U. Notes

Those who did not attend the joint meeting of the W.C.T.U. and "Y" on Friday evening at the Evangelical Church missed a very enjoyable program.

Convention reports given by Mrs. D. Sinclair and Miss G. Eby were educational and inspiring. Rev. Geeson's address on "Nationalism" and Mrs. Hallman's brief talk on "National Defence" were much appreciated by all present. Miss Alma Shaw's recitation "Little Tim" and the musical selections by the young people, added much to the pleasure of the evening.

The poster display attracted a lot of attention and the winners in this contest will be announced soon.

At the close of the meeting a delicious lunch was served in the basement by the "Y" Girls.

"Anthony Adverse."

"Anthony Adverse," with the tumultuous thrills that kept this Gargantuan novel at the top of best-seller lists for two whole years, leaps to life on the screen at the Opera House this weekend.

It will all be here, every adventure you've thrilled to, every character you've loved and hated. All the world's its stage, all the epic scope and earth-circling sweep, all the unparalleled romance, color and adventure that spanned three continents and three glamorous periods of history, miraculously captured in 24 hours of unparalleled entertainment. See love flowering under the skies of France, under the suns of Italy, and under the brilliant stars of a tropical night in Cuba.

"Anthony Adverse" is one of the finest film achievements of all time.

E. P. Foster Speaks at Mass Meeting

There was a capacity house on Tuesday night to hear E. P. Foster, M.L.A., give an account of his position in the legislature. At the outset he declared he was not going into personalities, but that he depreciated the action of the so-called "insurgents." He said that misguided youth was the cause of the insurgent movement.

He explained that he had kept off the public platform until the people had cooled down and were able to think calmly. He denied the statement that no progress had been made and pointed to the Social Credit Bill passed at the last session. He declared the bill proposed by the insurgents was practically the same as the one introduced by the government.

Mr. Foster said there was misapprehension as to the duties of the Social Credit Committee which had been appointed. It was not their duty to introduce social credit, but to appoint a commission composed of experts, accountants, etc., to prepare a measure. The commission would not be responsible to the executive, but to the legislature as a whole.

He said that he himself did not approve of the Budget and did not approve of any budget that did not tend to lower taxation and contain a proportion of social credit. He declared it to be an orthodox budget, but stated it was the only kind of budget that could be introduced at the present time.

He claimed that there was a movement on foot to unite the two sections of the legislature, which should be done, as just one misstep—and the social credit movement would be lost. He said that the financial interests were spending thousands of dollars to defeat the cause.

With regard to the legislation relating to the control of trucking, introduced by the government but later dropped, he declared he was opposed to it as it was ruining the truck industry. He declared that Messrs. Keith and Davidson of the highway department had got in touch with the railroads and drawn up the bill. He was glad that Keith and Davidson were now looking for jobs.

Mr. J. Landerson, M.P. for East Calgary, also spoke at some length and criticised the federal government. He spoke in favor of Mr. Aberhart as Premier of Alberta and declared there was not another man in the province who was capable of leading the party.

After Mr. Landerson had spoken the meeting was immediately closed and it was disappointing to some of the audience that no opportunity was given for questions, which had been usual in former social credit meetings.

Canada sold the United States nearly \$30,000,000 in the first four months of 1937 than in the same period of 1936, the dominion bureau of statistics said. Exports climbed to 141,135,800 from 111,827,000.

Spider Mite Damages Spruce Trees

Having noticed damage to his spruce trees, Mr. M. Weber wrote to the Department of Agriculture with regard to it and received the following reply from the Forest Nursery Station at Indian Head, Saskatchewan:

"Of late years a great deal of damage has been done to spruce from a small spider mite. Conditions for the development of this mite are much more favorable during hot dry seasons. The mite itself is so small that it cannot be seen unless the shoots are very closely examined with a magnifying glass. The general symptoms of an infestation are that the foliage gradually takes on a dull red sort of color, eventually the needles dropping off, and in a short time the tree will succumb. There is a fairly easy method of control for this spider mite, but it would be necessary to determine definitely whether your trees are infested, and suggest that you send samples of the injured shoots as soon as possible to Mr. K. Stewart, Entomological Laboratory, Indian Head. If he finds they are infested with this mite he will advise you as to control methods."

Mr. Weber is sending samples of damaged shoots to Indian Head and we will publish the results of the finding when he receives the reply.

Obituary.

JULIUS CHARLES STEVENS

At Didsbury on May 23rd occurred the death of Julius Charles Stevens, aged 80 years, 3 months and 19 days, after a lingering illness.

He was born at Richmond, Illinois on March 4th, 1857, and moved to Nebraska in 1880, where he married Ada H. Scott at St. Paul on February 6th, 1884. In 1902 he moved with his family to Didsbury and resided here until the time of his death.

Surviving are his widow; four sons, Robert of Bergen, Frank of Didsbury, Fred of Calgary, John of Edmonton; and one daughter, Mrs. C. J. Wrightson of Innisfail, also ten grandchildren.

The funeral, under direction of the Durrer Funeral Home, will be held from the Knox United Church on Thursday, May 27th at 3:30 p.m. Rev. J. R. Geeson will officiate. Interment will be made in Didsbury Cemetery.

Cattle Exports in U.S.-Canada Trade

The Canadian cattle trade in 1936 with the Chicago, Buffalo, St. Paul, and other markets in United States established a new record for recent years in volume and value, states the Seventeenth Annual Market Review, 1936, just issued by the Dominion Dept. of Agriculture. Altogether, more than 191,000 head valued at about \$8,679,000, of which 136,533 head came under the reduced tariff, moved to the United States as compared with 102,934 head, valued at about \$5,935,300, in 1935.

The reduction in tariff from 3c per pound on 700 pound cattle or over, for beef purposes, and from 3 to 1 1/2c on similar weights on dairy cattle, greatly stimulated the movement, in spite of the lower prices prevailing in the U.S. as compared with 1935. Of the quota for cattle 700 pounds or more, amounting to 155,799 head, Canada had about 85.5 per cent and Mexico 13.5, which for Canada represented about her average percentage of U.S. importations over a number of years.

Of the quota of 20,000 head for dairy cattle, all from Canada, the Dominion filled less than 30 per cent. This indicates the relative conditions of the markets in the two countries for dairy cows in 1936. Statistics in the U.S. give the calf imports from Canada as 55,695 head. The quota of 51,993 head, limited to calves not over 175 pounds, was filled by August 8th, 1936.

With regard to the present year, almost twice as many cattle and calves were exported from Canada during the first two months as during the same period in 1936, and since then the exports have continued substantially higher.

Conventions will be numerous in Calgary this summer, whether or not election developments materialize. To start the ball rolling, Alberta Liberals expect 800 delegates to their gathering, June 4-5, to elect a provincial leader. Rumor also has it that the C.C.F. clubs will gather in the city early in July, and the People's League of Alberta is considering calling its membership together to ratify a definite program.

Win Free Aeroplane Ride

Dot Barrett and Bobbie Hughes were the winners of the Free Aeroplane Ride given by J. V. Berscht & Sons and sponsored by the Murray Shoe Company, makers of Heel Hugger Shoes.

The Lucky Number, 8563, for the free pair of Heel Hugger Shoes has not been presented. If it is not presented before Saturday, May 29, the number next closest will receive the prize of Heel Hugger Shoes.

Social Credit Notes.

Didsbury S.C. Group No. 1 held its regular meeting on Tuesday night May 25th at the home of Mr. and Mrs. A. Schwesinger, with E. P. Foster, M.L.A., J. Landerson, M.P., and Mr. Smith of Three Hills as guests of honor. These gentlemen imparted to the group some very interesting and useful information.

Resolutions were passed, asking the local member to support the government and recommending that the government remain in office its full elected time. The group also endorsed the action taken by Mr. Aberhart and his government regarding debt reduction.

Needless Fatalities

The "drowning" season is at hand.

Once more the time of the year approaches when readers of the newspapers may expect to see reports, under more or less startling headlines, of casualties in water—stories of adults and children who have gone down for the third time, never to leave the water alive.

During the late spring, summer and early fall months, water will take its annual toll of victims in the prairie provinces.

The pity of it is—and yet a consolation, too—that most of these deaths could have been avoided, for practically all drowning accidents can be tabulated within the scope of two categories, and both of them to-day are avoidable, if the necessary precautions are taken.

Some people drown because they cannot swim. Others, who are able to swim, lose their lives in the water because they are physically unable to stand the shock, and develop cramps which tie the muscles and make it impossible for them to help themselves.

The obvious preventive of loss of life in the water by non-swimmers is to learn to swim. There is nothing difficult about that. Swimming is a comparatively easy art to acquire, though, it is true, some are more apt than others and as a result learn more rapidly than others how to keep themselves afloat in the liquid element.

It is not much use forbidding boys and girls to go down to the swimming hole to bathe. The lads and lasses cannot be blamed very much for attempting to seek relief from the torrid heat of the July and August sun in the cooling waters of the creek, the slough or the lake, whichever may be handiest.

The joys which come from the healthful sports of bathing, swimming and diving should not be subjects of prohibition in a country where the season for such enjoyment is all too short and the opportunities for healthful recreation somewhat limited.

Instead of restriction there should be co-operation and assistance on the part of parents and teachers and every boy and girl should be taught to swim under proper supervision at as early an age as possible. In some of the tropical countries children are able to swim almost as soon as they can walk and equally as expertly. It would be almost impossible for them to drown.

Learning to swim should be part of the school curriculum and once or twice a week during the summer months, after school hours or during the vacation, children should be taught to swim and enjoy the pleasure of bathing, if there is suitable water within reasonable distance. Swimming should be as natural to the prairie child as walking or running.

As for swimmers who perish because they are not in physical condition to stand the shock of cold water, even they can be rendered immune, if recently reported discoveries of medical science are authentic.

A Rochester, Minnesota physician recently announced, as a result of research and experimentation, that he has discovered that many people are hypersensitive to cold and that this hypersensitivity can be cured in a simple and easy manner and without benefit of medical attendance or the use of drugs.

To discover whether one is hypersensitive to cold and therefore in danger of succumbing to shock in the water, all that is necessary is to immerse one hand in ice cold water for a minute or two twice a day for a three week period. If the hand swells under this treatment, it is a danger signal. The experimenter is liable to shock and drowning if he or she ventures into the water, according to this authority.

Fortunately the remedy is as easy and simple as the test. One can be cured by continuance of the hand immersion practice until the swelling disappears. Then, according to the Rochester doctor, the "patient" has become desensitized and may venture into the water without incurring any risk of drowning from cramps.

If there is scientific authority for this discovery, a combination of tuition in the art of swimming and desensitization of all who might be subject to cramps would cut down the loss of life from drowning to almost zero.

It is true that every year lives are lost because boats and canoes are upset and their occupants tilted into the water, but most, if not all, lives lost as a result of this class of accident are due to the fact that either they are unable to swim or are overcome by the shock of cold water. If the former, the risk would have been avoided by learning to swim and if the latter, by the simple method of desensitization before running the risk of going afloat in any type of capsizable craft.

The risks of drowning under either of the two causes assigned are too great to be ignored and all who embark either on or in the water should be insured in advance, because they have taken all the necessary precautions to avoid death for themselves and sorrow for their friends and relatives.

There are 1,024,000 persons by the name of Johnson in the United States.

The number of sheep and lambs on Canadian farms is approximately 2,628,500.

There is only one ship in Ecuador's navy, five in Mexico's and 14 in Peru's.

Twenty-one per cent. of the meals eaten by Americans are eaten outside of homes.

The Cherokees are the only Indians to have literature recorded in an Indian alphabet. Sequoyah, a Cherokee inventor, worked out this alphabet in 1821.

DO YOU NEED A BUILDER?

WHEN you are miserable and perhaps in need of a good tonic, weight below normal, and you feel tired - out and weak, follow the advice of Mrs. H. M. Rhame of 141

Briscoe St., London, Ont., who said: "For a general run-down condition, nothing did more for me than Dr. Pierce's Golden Medical Discovery. Mother gave it to me and it certainly did help me. My complexion and color were bad, I lost weight and had poor digestion. After taking a few bottles of the 'Discovery' my appetite and digestion were much improved and I gained in every way." Buy now! New size, tabs, 20c.

SELECTED RECIPES

ORANGE DELIGHT

- $\frac{3}{4}$ cup scalded milk
- 3 tablespoons Benson's Corn Starch
- Few grains salt
- $\frac{1}{2}$ cup cold milk
- 1 egg yolk
- $\frac{1}{4}$ cup Crown Brand Corn Syrup
- $\frac{1}{2}$ cup orange juice
- 1 tablespoon lemon juice
- 1 teaspoon orange rind, grated
- 1 egg white
- 2 tablespoons fine fruit sugar

Scald milk in top of double boiler. Mix Benson's Corn Starch and salt with cold milk; add slowly to hot milk, stirring constantly until thick. Cover and cook 15 minutes, stirring occasionally. Combine egg yolk and Crown Brand Corn Syrup; stir and add to hot mixture. Continue cooking for three minutes. Add orange juice, lemon juice and grated rind. Stir and remove from heat. Pour slowly over stiffly beaten egg white to which has been added the fine sugar. Pour into mould and chill well before serving.

Both Are Centenarians

Egyptian Census Discloses Mother And Daughter Over 100

The world's oldest living couple, a mother and her daughter, were "discovered" in a village of lower Egypt during the Egyptian census being carried out. The mother, Rifaiva El-Sayed, is 157 years old, and her daughter, Moucharrafa Hachem, is 107. Even though they are wizened and their skin looks like old parchment, the census official would not believe the ages claimed by the women until the mother began to talk about Napoleon's campaign in Egypt.

Boy Scouts

Broadened Activities During 1936 Reported At Annual Meeting

Increased membership and broadened activities during 1936 were reported at the annual meeting of the Canadian general council of the Boy Scouts Association.

The governor-general, Lord Tweedsmuir, as chief scout, presided, and Sir Edward Beatty, president of the association, and representatives from all parts of Canada were present.

The total membership was reported at 85,946, an increase of 5,345. As in previous years Ontario showed the highest membership, with 31,585. Saskatchewan reported 8,626, Alberta 8,032, Manitoba 7,111, and British Columbia 6,881.

The heart of a normal adult pumps about one gallon of blood a minute.

A Costly Message

Proposal Telegraphed To Movie Star Cost Sender \$212.85

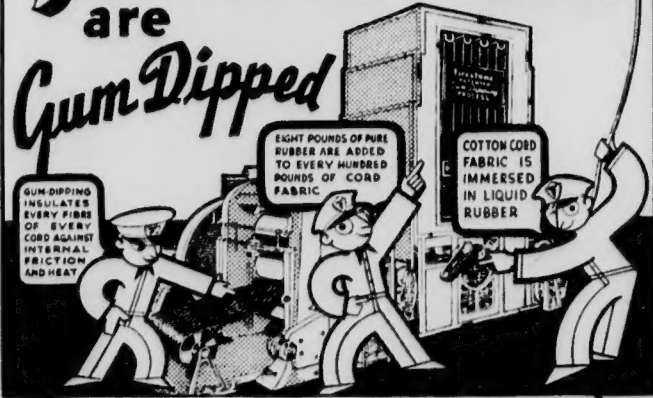

The telegraph companies should cultivate the good will of Kay Francis, dark-haired screen beauty. She believes that a recent telegram she received is the longest telegraphed proposal ever sent a Hollywood star.

A Detroit admirer, terming himself "well fixed financially," dispatched a fervent 2,500-word telegram, which ran on over 22 telegraph forms. Miss Francis never did finish it at one sitting except to find out the man was going to Hollywood for his answer.

It cost him \$212.85 to get across his romantic ideas.

Bones of 2,000 hippopotami, killed by prehistoric hunters, were found in a single cave in Sicily.

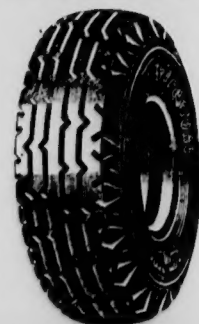

Only Firestone Tires are Gum Dipped

... You Get 58% Longer Flexing Life at No Extra Cost!

Gum-Dipping makes Firestone tires stronger and safer. No other tire has this extra process that eliminates internal friction and heat—the greatest enemy of tire life.

Knox United Church Notes.

The Ladies' Aid will meet at the home of Mrs. Norman Clarke on Thursday, June 3rd at 3 o'clock.

Notes From the West.

Mr. and Mrs. R. Reid and family spent the holiday at Cremona.

Mr. and Mrs. George Byrt were Monday visitors with the former's parents, Mr. and Mrs. F. Byrt.

Walter Dobson, accompanied by Mrs. James and Marjorie of Calgary, visited at his home over weekend.

Mrs. H. Hosegood and her sister, Miss L. Sissons, returned from a visit to Clive on Saturday. Miss Sissons left Sunday for Vancouver. Mrs. Hosegood accompanying her as far as Calgary, where she will attend the W.I. Convention.

Mrs. W. F. Brown drove to Calgary on Wednesday to attend the W.I. Convention. Mrs. Evans, Mrs. Otto Krebs, Mrs. P. Johnston and Mrs. A. Hogg accompanied her. Mr. and Mrs. Parker also went that day and took Mrs. Charles Youngs.

Dance at Grand Centre School—Friday, June 4. Gents 35c. Ladies please bring lunch.

Burnside Notes

Mr. Ralph Long returned Wednesday from England, where he had spent the winter visiting relatives.

Miss S. Zook, Mrs. B. Woods and Mrs. N. Eckel were visitors Wednesday last with Cremona friends.

Miss Salina Dedels and Fred Metz were visitors Wednesday evening at the Eckel home.

Miss Joan Woods spent the week end with Miss Ruth Thoman. Sunday evening visitors at the Thoman home were Miss Salina Dedels and Dick Metz.

Mrs. N. Eckel, Constituency Convener for the Didsbury district, is attending the Provincial W.I. Convention being held in Calgary this week.

Annual Pasture Crops.

The results of four years experiments conducted with annual pasture crops at the Experimental Station, Lacombe, Alberta, indicate that neither wheat nor barley are equal to oats as an annual pasture and that two bushels of winter rye per acre outyield all other annual crops tested. Late maturing varieties of oats such as Banner or Victory will produce much more pasture than early maturing sorts.

A mixture of oats and peas gave a good yield per acre but will not stand grazing as well as oats and rye or oats and rape. A mixture of two bushels of oats and ten pounds of rape per acre provides a good late fall pasture. A mixture of wheat, oats and barley does not yield as well as straight oats, while the forage produced is not superior to oats.

Winter rye, when seeded in the spring makes a particularly high yielding and high quality annual pasture. If after pasturing, it is left over winter, it will provide early pasture the following spring.

Spring rye appears to be about the same as barley and wheat in productivity. While this crop may have a place in the drier portions of the prairies, there appears to be no reason for growing it in preference to other cereals under conditions of soil and climate similar to Central Alberta.

Rape gives a high yield of green herbage but, because of high moisture content, does not contain as much dry matter as oats. It provided palatable, succulent pasture, high in protein and nutritious. Rape is not injured by frost, and for that reason, like winter rye, makes an excellent fall pasture.

The millets are not satisfactory annual pasture crops. They make a slow growth in the seedling stage and are hence unable to compete with weeds. They are also very subject to frost injury and are thus unsuited for fall pasture.

The three most suitable crops for annual pasture are oats, winter rye, and rape, either alone or in mixtures—oats and rye or oats and rape. Rape seeded in rows and cultivated produces the heaviest yield with very little waste in pasturing.

The World of Wheat.

By H. G. L. STRANGE
Director "Crop Testing Plan."

The University of Saskatchewan has rendered signal service in the Canadian battle against the dread reaper—RUST.

In the earliest days of this fight, which now happily seems to have been won for Western farmers, the University of Saskatchewan was chosen as an important research institution under the direction of Professor W. P. Fraser.

This able scientist made important and valuable findings about the origin and spread of rust infection, the part played by barberries and grasses, and about the part played by air currents as an agency in the spread of the rust.

Meanwhile Dr. W. P. Thompson, also at the University, since 1915 had been conducting breeding work for rust-resistance, and during 1918 and 1919 had made many crosses. Since then the breeding work at the University, under the direction of Professor Manley Champlin and Dr. J. B. Harrington, has gone steadily forward, culminating in the valuable rust-resistant variety APEX, now licensed for distribution, and which is the result of a cross made in 1929 between (11-44-24 x Double Cross) and Marquis.

Apex yields as well as Marquis and is equal to that variety in baking strength and flour color. It is now being intensively tested against Thatcher and Renown.

Following factors have tended to raise price: Rains needed over large areas Prairie Provinces and U.S.A. spring wheat belt -- Large takings of export wheat continue in Europe -- Rains needed in large portion of U.S.A. southwest -- Argentine corn yields said to be under expectations -- Drought prevails in North Africa.

Following factors have tended to lower price: Rains relieve drought in Australia -- Uncertainty about possible devaluation of gold -- Fear that U.S.A. administration trying to stop price of many commodities rising -- Favorable European prospects for fruit crop -- Barley cutting under way in Tunis -- U.S.A. winter wheat crop nears maturity.

Items of Interest

Licensing of all persons engaged in livestock transactions in this province, whether as principal or agent, is required under provisions of an order-in-council published in the current issue of the Alberta Gazette. The annual license fee of \$5.00 is to be paid by those dealing in horses, cattle, sheep or hogs, providing they are not licensed under the Licensing of Trades and Businesses Act. Power is given the minister of agriculture to refuse any application for a license, or to cancel or refuse to grant a renewal, unless a satisfactory bond is furnished by the applicant.

Wife (at breakfast): "Could I have a little money for shopping today, dear?"

Hubby: "Certainly. Would you rather have an old five or a new one?"

Wife: "A new one, of course."

Hubby: "Here's the one—and I'm \$4 to the good."

SHERIFF'S SALE OF FARM LANDS

Under and by virtue of an Execution issued out of the Supreme Court of Alberta, Judicial District of Edmonton, to me directed and delivered, commanding me that of the goods and lands of Thomas Rands and Arabella Rands in the Judicial District of Calgary I cause to be made the sum of \$2,321.16 which Margaret Devereaux by a Judgment registered in the said Court dated the 16th day of May A.D. 1935 recovered against the said Thomas Rands and Arabella Rands, and pursuant to the directions of a Judge of the said Court, there will be offered for sale by public auction at the Court House in the City of Calgary in the Province of Alberta, on Friday the 28th day of May A.D. 1937, at the hour of 2:00 o'clock in the afternoon, the following lands, viz.,

PARCEL No. 1: The North West Quarter of Section Thirty (30), Township Thirty (30), Range Twenty-Eight (28), West of the Fourth (4th) Meridian in the Province of Alberta, containing 160 acres more or less. Excepting mines and minerals.

PARCEL No. 2: The South West Quarter of Section Thirty-One (31), Township Thirty (30), Range Twenty-Eight (28), West of the Fourth (4th) Meridian in the Province of Alberta, containing 160 acres more or less. Excepting mines and minerals.

There are the following improvements upon the said lands, viz.,

There are 20 acres of Timothy and 170 acres of cultivated land, of which 20 acres has been summer-fallowed. The land is fenced with 2 and 3 strands of barbed wire and is situated 9 miles from Carstairs and 2 miles from a school.

The terms of sale to be 10% cash at the time of the sale and the balance to be paid to me within sixty days after, without interest.

Each parcel will be sold subject to taxes for the current year.

In all other respects the terms and conditions of sale will be the standing conditions of sale of the Supreme Court of Alberta so far as the same are applicable hereto.

For further particulars apply to Messrs. Griesbach, O'Connor & O'Connor, Solicitors for the Judgment Creditor, National Trust Building, Edmonton, Alberta.

DATED at Calgary in the Province of Alberta, this 30th day of April A.D. 1937.

V. R. JONES
SHERIFF, Judicial District of Calgary.

FOR THE KIDNEYS

WORLD HAPPENINGS BRIEFLY TOLD

Russia's second five-year plan, the government asserted, has been fulfilled far ahead of schedule.

Merchants of Safed, Palestine, were ordered to pay a collective fine of £150 (\$740) for attacking an Arab who purchased a watch from a Jew despite the local Arab boycott.

All occupants of a German army plane were killed when the craft crashed on a training flight on the outskirts of Berlin. The air ministry would not reveal the number killed.

German citizens of military age residing in foreign countries are required to sign the recruiting lists of their local German consulates, under a new government ordinance.

The dowager Duchess of Roxburghe, who inherited \$3,000,000 in 1929, from her mother, Mrs. Mary Goelet, of Newport, Rhode Island, died in London recently.

A fixed rate of 32 cents has been placed by the Canadian government on the German mark, in accordance with requirements of the recently adopted Canada-Germany trade agreement.

The royal commission probing Canada's penitentiary conditions will visit England in July to study the "best penal system," Mr. Justice Joseph Archambault, commission chairman, said.

The king invested the Earl of Clarendon with the insignia of Knight of the Order of the Garter in audience at Windsor castle. The earl has just returned from his term as governor-general of South Africa.

The Earl of Bessborough, former governor-general of Canada, will succeed the late Sir Austen Chamberlain as chairman of the loans committee of the League of Nations, the committee announced.

Steal From U.S. Treasury

Veteran Women Employees Found In Possession Of Marked Bills

With tears streaming down their wrinkled cheeks, four grey-haired women folded their aprons, and walked out of the United States treasury department, branded as thieves of currency.

Veteran employees all, they had pilfered from the great piles of greenbacks in their charge. Iron bars guarded the windows, secret service had headquarters almost around the corner from them, uniformed guards were at every doorway, yet this quartet of motherly women managed for years—nobody knows how many—to sneak out dollar bills and once in a while a five-spot.

So amazed were treasury officials that they hardly could believe the evidence placed on their desks; evidence consisting of bills marked by secret service agents, and found in possession of the feminine culprits.

The treasury dismissed them promptly, but said they would not be prosecuted, partly because of their long terms in federal service, and partly because of the fact that their robberies, even through the years, were believed to have totalled only to a few dollars. Their names were not made public.

Bees fly no farther for food than is absolutely necessary. They usually confine their foraging to an area within a mile or two of the hive.

In its journey around the sun, the earth travels at the rate of 1,112 miles a minute.

Human Hearts Revived

Are Made To Function Normally After Death

A new machine in which human hearts are revived after death and made to resume their normal blood-pumping function was demonstrated before the American College of Physicians.

Dr. William B. Kountz, of Washington University, described how he had brought more than 100 hearts back to normal functioning after they had ceased beating in the human body for as long as six hours and induced them to again take up their rhythmic beating.

He described the device as different from the "glass heart" developed by Dr. Alexis Carrel, Rockefeller Institute Nobel prize winner, and Col. Charles A. Lindbergh. The Carrel-Lindbergh device acts as a pump to carry nutrient solutions to a piece of tissue to make it continue living, Dr. Kountz declared.

In the Washington University apparatus, however, the heart is the pump which forces blood through a system of pipes and reservoirs similar to those of the body, and a recent modification makes it possible for an entire liver, kidney or other human organ to be connected to the artificial circulation so that its behavior may be studied in ways not possible within the body.

No effort has been made, the Washington University scientist said, to determine how long a revived human heart would continue to beat after it has been started. "We generally stop them after about six or seven hours, at the conclusion of an experiment. The vigor which they show when doing the work of pumping in the apparatus gives some idea of what a tough piece of muscle the human heart is."

Sweden Will Celebrate

Holding Two-Day Festival To Mark 400-Year Jubilee

On June 19, trumpets from high towers of Gripsholm Castle, near Stockholm, Sweden, will announce the opening of a two-day festival to mark a 400-year jubilee. The celebration will not be confined only to the castle and the island on which it is built, but will turn the entire region for miles around into one huge pageant ground.

The large lake around the castle will be alive with hundreds of sailboats, motorboats, canoes and a whole navy flotilla, and at night the lake scene will take on extra brilliance, floodlighted by special illumination. Three crack regiments in full dress regalia and with their complete military bands will be quartered in the adjacent countryside. An amphitheatre is to seat 40,000 and an open air restaurant will serve 20,000.

Gripsholm Castle is associated with Gustavus Vasa, the liberator of his country from foreign yoke and the founder of the Swedish state in its modern form. It was in his day that the castle's famous portrait gallery was started—a collection that has grown through the centuries to practically the largest in Europe. Rooms in the famous castle, at other times not open to the public, will be thrown open to visitors on these special days.

King Gustav, and also the entire royal family and high state dignitaries, will arrive amid historic royal fanfare of trumpets, a procession of horse guards, stirring strains of military and national music, and colorful costumes and uniforms. The king will declare the festivities opened.

Memorial Unveiled

King George Takes Part In Ceremony At Windsor, England

In the shadow of ancient Windsor castle, the king unveiled a memorial to his father—"George V.—first sovereign of the house of Windsor"—and said he regarded it not only as a new association between the royal family and his royal borough, but "also a link with another Windsor in the great Dominion of Canada."

The memorial, a simple cenotaph, is a joint gift of the people of Windsor, Berkshire, and Windsor, Ontario.

Some of England's finest fleeces come from Orkney and Shetland, where sheep feed on seaweed.

The first corkscrew patent in the United States was issued to P. Blake in 1860.

SLENDERIZING FROCK A "MUST HAVE" FOR MATRONS' WARDROBE!

By Anne Adams

So slenderizing, so full of charm—this captivating frock, that every fashion-alert Matron will deem it a "must have" for her Summer wardrobe! Been wondering what to wear to afternoon parties, club meetings, and informal festivities? Let Pattern 4371 solve that problem for you, for it's a frock that's "right" at all times and so easy to make that you'll find it pleasant diversion, indeed! Do notice the interesting open V bodice (fill it in with a bit of lace), the capelet sleeves that will keep you cool and carefree, and the slenderizing panel-front that subtracts pounds from your appearance. You'll want to stitch up this becoming model in a variety of colorful fabrics, so choose a pretty cotton or silk print! Pattern 4371 is available in sizes 34, 36, 38, 40, 42, 44 and 46. Size 36 takes 4 1/4 yards 39 inch fabric. Illustrated step-by-step sewing instructions included.

Send twenty cents (20c) in coin or stamps (coin preferred) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number, and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

Might Occur Again

Great Lakes Region Shaken By Earthquake In 1663

Earthquakes, rivaling in destructive power the catastrophes suffered in San Francisco and Japan, are seen by Dr. William H. Hobbs of the University of Michigan as a distinct probability for the Great Lakes region, and Dr. A. P. Coleman, of Toronto, while he thinks Dr. Hobbs' predictions "extreme" and "alarmist", considers the probability worth considering.

The fact that this area was rocked by a tremendous quake in 1663 is one reason for Dr. Hobbs' assumption. Records made by the Jesuits at that time indicate that this catastrophe was of major dimensions.

Since that date, there have been minor shocks at recurrent intervals and Dr. Hobbs believes that these are safety valves and that the more frequent they are, the longer a devastating quake may be deferred.

Cause of these disturbances is the glacial ice sheets which once covered North America to the depth of one to two miles. One million years ago, scientists say, the ice began to form; only about 25,000 years ago did it begin to recede. The earth, relieved of the pressure of the ice, is now regaining its original contours. Dr. Coleman believes that the movement has virtually ceased, and that the earth is back to normal. Any shocks we may experience such as that of Halloween, 1935, are minor readjustments, he declares.

Leonardo da Vinci was the first to explain that the partial illumination of the darker portion of the moon was furnished by reflection of sunlight from the earth.

Elephants are not afraid of mice, as a popular superstition would have you believe.

Not Immune To Attack

Canada Might Need Britain's Help Badly Some Time

Senator Molloy says 90 per cent. of the people of Canada are opposed to Canada's taking part in another European war. He adds: "If Great Britain enters a war in which Canada has no interest, Great Britain will have to fight it out alone as far as I am concerned."

All the senator needs to make him a champion of Great Britain is a true perception of the interests of Canada. These lie in the preservation of Britain and the Empire as the bulwark of stability in a world threatened with disruption. If Britain enters another, Canada will have interests in it.

It may be true that 90 per cent. of the people of Canada are opposed to taking part in another European war, but consideration of their real interests may leave them no choice. It is possible that 90 per cent. of the people of Ethiopia would have been opposed to taking part in a war with Italy if Mussolini had left them alone. He did not leave them alone and they had to fight.

That is one of the difficulties in this mad world—people won't leave a man or a nation alone. Canada has only 10,000,000 people in a country with wide open spaces, while crowded nations elsewhere are clamoring for land for their surplus populations. Some day one of these nations is not going to leave Canada alone. In that day it will be her interest to have Britain handy with help.—Toronto Telegram.

Upsets Theories

New Drug That Is Claimed Will Make Walking Less Of An Exertion

A drug which increases the ease of fast walking by about 14 per cent. and which upsets theories that in the human body normal perfection cannot be improved upon was reported to the federation of American societies for experimental biology.

This surprise was furnished by Cortin, a hormone produced by the adrenal glands, two small cap-shaped bodies above the kidneys.

Some of this hormone, obtained from the glands of beef, was given to eight men and three women by Fred H. Hitchcock and R. C. Grubbs of the department of physiology, Ohio State University. The effects were measured in changes in their breathing while lying down, standing, and walking rapidly. In all cases their bodies required less oxygen and breathing was easier. This was very noticeable when they walked at a speed of nearly four miles an hour. In that case there was an average decrease in oxygen breathed of about 15 per cent.

Bought Own Baskets

Never-Ending Supply Was Puzzle To Ontario Grocer

Giving the boys a cent for every fruit basket returned, a local grocer found himself getting in on a buying campaign that rather astounded him at the unlimited supply of the basket market. Becoming suspicious of the never-failing stream of youthful basket vendors, he made bold one day to inquire into the methods of gathering the empties and one less sophisticated than the others let him into the secret that they were recruiting their supply from the stock contained in his back warehouse, or in other words he was buying the same basket over and over again. The buying campaign stopped with the abruptness of a sit-down strike in an ammunition factory during a bombing raid.—Walkerton Herald-Times.

The Sacred Calabash

The "Sacred Calabash" of the South Seas was made by cutting off one end of a gourd, and boring four holes equidistant from the upper edge. The gourd then was filled with water, which ran out through the holes if it were tipped in any direction. This made it possible for the navigator to keep the instrument level.

Tides are caused by the attraction of the moon's gravity. As the earth turns, the moon attracts the water in the ocean and raises a bulge in it. The bulge is the tide.

Robins, sparrows and thrushes often live to the age of 25 years.

Gardening

In the smaller types of easily grown flowers are the alyssums. They are white and dainty and useful for edging. These will grow in partial shade and make excellent edging plants. Portulaca is also recommended. It is a spreading plant with bright yellow, red and pink wax-like flowers. It thrives in bright sunshine and dry soil, and requires little care. In the latter category also come nasturtiums, marigolds, calandulas and petunias.

Zinnias, giant, medium or dwarf size, offer a range of bloom that the busy person can plant with certain satisfaction of a big display of bloom. These, except for the tiny affair with close button-like flowers, are large plants. The bigger ones will make a height of 18 inches to two feet or more. Colors cover a wide range from dull red, bronze and yellow to bright red and pinks. The blooms somewhat resemble the rose. They grow well in almost any part of Canada.

Experienced gardeners often make it a rule to try at least one new variety of vegetable every year.

For the "greens" enthusiast, a few plants of Swiss Chard will provide an abundance of meals. It is worth investigating as is also Broad Beans, which come along about midsummer and later. Broccoli, a sort of refined cauliflower, Koli Rabi, a refined turnip, and Red Cabbage and Yellow Tomatoes will lend interest to the regular types and provide a slightly different flavor. In many places egg plants and peppers can be grown and will be appreciated. They must be started early indoors. The red type of the latter can be used as a pimento filling for sandwiches. In the melon family will be Muskmelon and Watermelon, certain varieties of which can be produced in a surprisingly wide area of Canada; there is also the little individual Acorn or Table Queen Squash which is a big improvement over its rather watery ancestors. Leeks add variety to the Onion family. Tender white Radish lengthens the season for this vegetable, and some of the extra early Bantam type will do the same for corns.

Tourists Using Trailers

See Health Menace If Adequate Provision Not Made As To Sanitary Conditions

Health authorities are concerned over a new menace—the dangers that might follow the increase in trailer life if adequate provisions are not made as to sanitary conditions.

Dr. J. W. S. McCullough, in a statement issued from the headquarters of the Health League of Canada, says that among the specific problems created by the annual motor traffic of people who live "by the way" are the matter of safe milk and water and sanitary disposal.

"Safe water" he says "may commonly be had in most localities. In the case of a doubtful supply the water may be boiled, or treated with chemicals supplied by the Health Department. If pasteurized milk is not obtainable, the milk used should be heated to 142 to 145 degrees F. and held at this temperature for 30 minutes. However, the itinerant tourist who is wise, will procure his milk supply from a pasteurizing dairy in a city or town and keep it in good order in an improvised ice chest.

Sanitary disposal problems offer the chief danger, as sources of water supply may easily become polluted. Some means of overcoming the difficulties faced by tourists must be devised, according to the Health League's statement and the suggestion is offered that the provincial governments provide the necessary accommodation and that a general policy as to tourist regulations be adopted.

Just before the Woolworth stores developed sit-down-strike trouble, a lady dropped into one and asked a salesgirl if they carried compasses. "We have them for drawing circles, Madam," the girl said, "but not for going places."

Golf balls first were made of horsehide cases stuffed with feathers.

Spoiled Bread?

first recognized as such by human
beings was treason. This was regard-
ed as a crime before murder was so
recognized.

The astronomical light year is
nearly six million million years.

How To Overcome Piles And Rectal Soreness

If you are annoyed with itching piles or
rectal soreness, do not neglect the same or
run the risk of an operation. Any itching,
soreness or painful passage of stool, is na-
ture's warning and proper treatment should
be secured at once. For this purpose get from
any druggist, a package of Hemroid and use
as directed. This formula, which is used in-
ternally, quickly relieves the itching and sore-
ness and aids in healing the sore, tender
spots. Hemroid is a physician's prescription
and is highly recommended. It is easy to use
and it seems the height of folly for anyone
to risk an operation when a simple remedy,
which is so pleasant to use may be had at
such a reasonable cost.

THE YELLOW BRIAR

A Story of the Irish on the
Canadian Countryside

By PATRICK SLATER

By arrangement with Thomas
Allen, Publisher, Toronto.

CHAPTER IV.—Continued

So the morning after, I rode off in
William Marshall's wagon on my
way to Mono Mills. The team
spanked along the Dundas Road west
from Toronto, and, turning north-
ward, we travelled slowly over rough
roads to Malton on the Sixth line of
Chinguacousy. We lodged the night
after at a roadhouse at Tullamore.

Bright and early in the morning,
we were up and on our way again.
William Marshall was big-hearted
enough to be kindly in his quiet way
to the little urchin riding beside him
into a strange world. The flight of
the wild pigeons, and the flow of the
cedar-clad water brooks, were lea-
suredly explained as the creaking
wagon lumbered slowly along. The
country gradually became rough
and broken. A great hill stretched up
suddenly before us; and along its
crest small, fleecy clouds passed
slowly by, like a flock of sheep newly
washed clean.

"Oh! Sir," I cried, in childish dis-
may, "how will we ever get up that
powerful big hill?"

"Just bide a little, lad," the man
told me, "and we'll lick that little
old hill once we get a hold of him."

And true enough the hill gradually
melted away, in wondrous wise, to
disclose a still greater one to
threaten us.

"Oh, Sir!" I exclaimed, clutching
his arm, "how will we ever get up
that terrible big hill?"

"Patrick," Mr. Marshall told me,
"you and I didn't cross the great
stormy ocean to be scared by little
hills, or aught else. We Irish fel-
lows just go up to things like that
and give them a good ding."

The man's conversations were fine
for shortening a journey, what with
the frolicking thoughts that chased
one another through my head.

Early in the afternoon we pulled up
at Henderson's blacksmith shop. The
anvil was ringing—"clink! clank!
clink!" at that iron forge at Mono
Mills as the smith beat a glowing
horseshoe into shape amid a spray-
ing shower of flying stars. Out on
the wind to smart the nostrils, drift-
ed the peat-like smoke of the forge
and the pungent smell of a hoof
burned in the fitting.

Michael Costigan bestirred himself
to reset a spare wagon wheel left in
for repairs as our team had passed
down. The huge Irishman wrought
earnestly over the hot tyre, his
tongue sticking out the corner of his
mouth in a curious way.

His little son, as freckled as a
turkey's egg, was standing by.

"It'll no holt, Mike Costigan!" the
child cried to his father. "It'll no
holt, Mike Costigan!"

"Holt your tongue!" the father
shouted back at him. "Faith if you
had a band as tight as that around
your body at the belly button you'd
be a cheap little lad to feed."

Some one whistled the black-
smith's tune—"Rory O'More."
Then Costigan was treated to the
song:

Now who is this grimy-faced
man that we hear,
Directing the world as he ham-
mers our gear?
O, the noises he makes would
split any one's ear!
Sure it's Michael, the black-
smith at Mono.

Later in the afternoon we drove
to the farm where the yellow briar
grows. It was Friday, the 24th of
September, 1847, a beautiful day,
fair and clear after the rains. At
the big log house a warm welcome
awaited us.

It was a pioneer farm with ten
years heavy work behind it in the
making. But there were compensa-
tions. Whatever else they lacked,
the pioneers in the Ontario bush fed
like fighting cocks. Not for them
were the tom-tit-like meals that
cook themselves at home while the
motor car is gallivanting round to
ladies' meetings in the countryside.

There was, aye, an abundance
there for supper that night—of cold
pork, hot pigeon pie, fried potatoes,

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the
Morning Ravin' to go

The liver should pour out two pounds of
liquid bile into your bowels daily. If this bile
is not flowing freely, your food doesn't digest.
It just decays in the bowels. Gas builds up
your stomach. You get constipated. Harmful
poisons go into the body, and you feel sour,
sunk and the world looks punk.

A more bowel movement doesn't always get
at the cause. You need something that works
on the liver as well. It takes these good, old
Carter's Little Liver Pills to get these two
pounds of bile flowing freely and make you
feel "up and up". Harmless and gentle, they
make the bile flow freely. They do the work
of calomel but have no calomel or mercury in
them. Ask for Carter's Little Liver Pills by
name! Stubbornly refuse anything else. 25c.

green tea, wheaten bread, ginger
cookies, hot shortcake and maple
molasses; aye, and a jug of milk
standing handy on the table.

Mr. Marshall said grace, asking
the Lord to bless the food to its in-
tended use, and for what we were
about to receive to make us truly
thankful. There were eight of us
around that kitchen table to be
thankful—a young squaller three
quarters old in a basswood crib; Mr.
and Mrs. Marshall; a hired man and
his wife, both living in; two other
small Marshall children, and young
Paddy Slater.

After supper I sat on the wash
bench by the side of the back kitch-
en door. Then came still evening
on, with the tiny noises of small
creatures stirring in the early twi-
light; and, in between, I could hear
the sound of the grasses growing.

Little Charlie Marshall sidled up
to show me a big wart he prided
himself on. Then I helped the hired
man fetch water from the well. It
was a curious contraption, that well.
A long, stout pole had been teetered
on the crotch of an elm post planted
some feet back. A bucket and rope
were attached at one end, and the
other end was well weighted. Letting
the bucket down for water hoisted
the weighted end of the pole. When
the bucket was filled, one just
stepped it, and up it came, neat and
easy-like, with no strain or slopping.

That night I was sent to bed up
a ladder into the loft over the back
kitchen.

"Patrick," Mr. Marshall called up,
"I wish you a good night. God have
you in His keeping."

It was lonely up there for awhile,
but I soon discovered my little folk
come with me. I could hear the
pixies playing about in the walls and
every now and again a little fellow
went "tick-tick!" like a watch,
"tick-tick!" to let me know he was
guarding over me. A boy feels all
right with friends like that about. It
had been a long day, filled with ex-
citement and diversions. I had need
of a stretch, so to sleep I went.

One of the fairies pulled my lug
in the early morning; but I was slow
in grabbing him. When I rubbed
my eyes, the windows of the day
were opening in the east. All I saw
was a fat grey squirrel cocked on a
nearby box. By the bigness of his
eyes I could tell, however, he had
been seeing rare goings-on.

They find out many intimate
things about antiquity by digging
among its ruins; in like manner the
story of any Ontario farm is told by
the houses that have been built upon
it.

The first dwelling on the Marshall
farm was a small log shanty built in
the spring of 1837; and when I
arrived on the place it was doing
service as a pig pen. Its walls were
built of cedar logs small enough for
one man to hoist them into place.
At the corners they were neatly
notched. The spaces between them
were chinked with moss and the roof
of the cabin was covered with slabs
of tamarack bark. An axe blade
was the only iron used about its
original construction.

William Marshall's father had been
an early settler among the Lutherans
around Cashel in Markham
Township. The family was a large
one; and on rising seventeen years,
the lad, Willie, went out to work as
a hired man. By the spring of 1837,
he had laid aside £45, Halifax cur-
rency; and with part of his savings
he bought a 200-acre homestead of
his own in the unbroken wilderness
among the hills of Mono. He was
attracted to the place by the beech,
oak and hard maple, and the float-
ing boulders of limestone, which, to
his mind, gave strength to his soil.

Early in May of that year, he got
a lift for himself and his dunnage as
far as Campbell's Cross. At that
point young Marshall shouldered his
axe and a sack of grub, and fared on

foot up-country along a blazed trail
to conquer his kingdom. The little
cabin went up in short order. The
rest of his scanty supplies were then
packed in; and the lad set to work
felling timber in order to make land.
His working equipment consisted of
two axes, a whetstone, and a mus-
ket. Every week he went a tidy step
to a neighbor's for his batch of
bread. His other provisions were
molasses, sowbelly and speckled
brook trout that fry deliciously, as
you know, in a pan over a slow fire.
The sweetest meat man ever ate are
these little Molly Cailins.

By the middle of August, Marshall
had chopped seven acres of heavy
hardwood timber; and the field he
made stands to this day as evidence
of his feat. A rail fence went around
the fallow the next spring; and we
have been flinging field stones along
its fence lines for so many years that
no one has since had courage to at-
tempt to alter the boundaries of the
field. It was not, however, a case of
falling one tree after another. The
axeman started at one side of the
clearing he was making, and, chop-
ping into the standing trees to
weaken them, prepared for a great
windfall to start at the other side
and lay the trunks in windrows con-
venient for the burning. It was a
job for an expert; but there was an
expert on the job.

After Marshall had patiently chop-
ped his way across the field in this
fashion, neighbors came over to lend
him a hand in starting the falling.
The roar was deafening as the trees
toppled one another over in their
swaying fall.

Louder sounds the axe, redoubl-
ing stroke on stroke.
On all sides round, the forest
hurls his oaks
Headlong. Deep echoing groan
the thickets brown.
Then rustling, crackling, crash-
ing, thunder down.
—The Irish Reader.

That season William Marshall
chopped and prepared logs for a
stable and a house. The frosts of
November found him back on his
father's farm at Cashel for the win-
ter. On the 7th of December he was
at the burning of Montgomery's
tavern. What he actually went down
to do at that scene in the Canadian
Rebellion of '37 has always remained
shrouded in a pious mystery. I sus-
pect he was with a party of farm
boys who marched down Yonge
Street to give Sir Francis Bond Head
and his government a taste of their
muskets and croppy pikes. On near-
ing the scene of action, they found
the rebels' affairs in such a plight
that, to get neatly out of the scrape,
the North York yeoman declared
stoutly they had marched down to
maintain law and order in Toronto
town.

(To Be Continued)

Pearls sometimes are found float-
ing in the milk of cocoanuts.

TRAINER GIVES HIS TEAM KRUSCHEN

"Daily Dose" for Footballers

Read what one professional trainer
does to keep his team in tip-top con-
dition:—

"I am a professional trainer, at
present with a first-class football
team, and have been for the past
fourteen years. Kruschen Salts has
been very beneficial, both as a laxa-
tive and in keeping the men free
from staleness. Each morning I see
that every man under me takes a
small amount of Kruschen Salts to
assist the liver and kidneys. I have
used Kruschen with all types of
athletes, and also extensively among
my private patients, for cases of loss
of vitality, rheumatism and neuritis."
—J.J.J. (Certified Masseuse.)

The "little daily dose" of Kruschen
Salts helps to keep the internal
organs functioning regularly in their
daily duties. Liver, kidneys and
bowels are stimulated to healthy,
vigorous activity, thus assisting them
to eliminate waste products and
poisons that endanger the health.

Little Helps For This Week

And as many as walk according to
this rule, peace be on them, and
mercy, and upon the Israel of God.
Gal. 6:16.

Lord, I have given my life to
Thee,
And every day and hour is Thine;
What Thou appointest let them
be,
Thy will is better Lord than
mine.

Before you go out into a new day
ask your King to take you wholly in-
to His service, and place all hours of
the day completely at His disposal,
asking that you may be ready to do
exactly what He wishes you to do.
Never mind about tomorrow, one day
at a time is enough. Try it, and see
if it is not a day of peace, so sweet
that you will be thankful when to-
morrow comes to ask Him to take it
also. The service is not necessarily
active work, it may be waiting,
learning, or suffering, but shall we
be less ready for any of these if
it is what He appoints. Let us al-
ways ask to be prepared for what-
ever He is preparing for us.

No Sacrifice For Him

Chancellor Hitler has eaten no but-
ter for four years, according to an
article by Otto Dietrich, Nazi press
chief, in the National Zeitung of
Essen. Stressing the Chancellor's
frugal habits, Dr. Dietrich said Hit-
ler had stopped using butter long be-
fore there was any question of a
four-year plan. Dietrich also re-
called the dictum of General Her-
mann Goering: "Butter makes you
fat."

Turkeys, in their natural state,
roost in trees. 2201

LOCAL & GENERAL

Mr. Steve Klejko and family motored to Coleman to spend the holiday.

Messrs. H. A. Stackhouse and J. Miller, of the Royal Bank, spent the weekend in Calgary.

Mr. and Mrs. J. H. Fleury left on Monday evening for their new home at Dawson Creek, B.C.

Howard Halliday left on Tuesday evening for Oshawa, Ont. He will drive home with a new Pontiac.

The Didsbury Fish and Game Association's Annual Meeting which was to be held on Tuesday was postponed until Thursday, June 3rd.

Mr. and Mrs. Pete Miquelon visited the latter's parents in Olds over the weekend.

Miss Wynne Studer entertained a party of friends at Sylvan Lake for the holiday weekend.

A. A. Dyck is building a bungalow 24x26 on the lot east of Ed. Boettger in East Didsbury.

The heavy rains Sunday caused postponement of the Victoria Day Sports at Olds to Wed., June 2nd.

Mr. and Mrs. A. G. Studer spent the holiday weekend at their cottage at Sylvan Lake.

All lines of Travelling Bags, Suitcases \$1.25 up.—T. E. Scott.

Mr. H. Morgan leaves Friday for Vancouver where he will represent the Alberta Postmasters' Association at the B.C. convention.

Mr. and Mrs. Benny Robinson of Morinville spent the holiday weekend with the latter's mother, Mrs. G. Seesmith.

Mr. and Mrs. Cecil Studer visited the home of the former's parents, Mr. and Mrs. A. G. Studer, over the holiday.

Miss Edith Hunsperger, of the Beulah Home staff at Edmonton, is spending a few days' vacation at her home here.

K. Roy McLean, Sight Specialist, 210 Southam Building, Calgary, will be in Didsbury Monday morning June 7th at the Rosebud Hotel. (tw)

Big Barn Dance at Bill Brown's place Friday, May 28th. Rugby Orchestra. Gents 50c. Everyone welcome.

If in need of Men's Summer Underwear or Work Clothes.—Call on T. E. Scott.

The prize list of the Calgary Exhibition, which will be held from July 5th to July 10th, has come to hand. Entries close June 16th.

Over a thousand of the most thrilling pages ever written leap to life on the screen in "Anthony Adverse," this weekend's extraordinary attraction at the movies.

Local fishermen would not lack for alibis this last weekend, as first thing Tuesday morning a fish pedlar was around town, who likely could have supplied those unlucky ones.

Mr. A. Thomas of Sexsmith, took charge of the Midland & Pacific Elevator last week. He has purchased the residence of Mr. J. H. Fleury and will take possession in June.

Rev. C. J. Hallman left Wednesday for Alsask and from there will leave for Ontario and the U.S. He will attend a meeting of the foreign mission board of the M.B.C. Church to be held early in June.

Dr. F. M. Hughes and family of Calgary spent the holiday weekend with Mrs. Fred Hughes. Dr. Hughes is a son of the late Fred Hughes. Gerald and Ray Hughes were also weekend visitors here.

Rev. E. H. Birdsall who has been secretary of the Student Christian Movement in the University of Manitoba for the past two years, has accepted a call extended by the Kenton (Manitoba) charge of the United Church. Mr. and Mrs. Birdsall will begin their new duties July 1st. Rev. Birdsall is a son of Mr. and Mrs. W. E. Birdsall, east of Didsbury, and at one time was an employee of the Royal Bank here. We join with the district in wishing him success in his new duties.

T. E. Scott has the best values in Men's Dress Oxfords, from \$2.75 up.

LOCAL & GENERAL

Mr. and Mrs. E. G. Ranton, Bill Ranton and Miss Ethel Bruce motored to Edmonton to spend the holiday weekend.

Mr. O. W. Stauffer and son Lloyd left Tuesday for a six weeks' visit with relatives at Kitchener and other Ontario points.

As I have taken over Mrs. Fleury's Beauty Shoppe, I would appreciate your patronage. Watch for a Special in Permanent Waving.—Norma Sanderman.

Mrs. Charlotte Goodhand of Calgary is visiting her daughter, Mrs. Ivan Weber. Mrs. Beatrice Briggs and Miss Helena Davies of Calgary were also visitors over the weekend.

The "Five Swingsters Orchestra" of Edmonton, with Curt Wieritz and his string bass, will provide the music for a dance sponsored by the Didsbury Tennis Club on June 2nd in the Opera House.

For Boys Scampers and Canvas Shoes.—T. E. Scott.

Mountain View Notes.

Misses Aileen St. Clair, Janet and Ethel Bruce were Calgary visitors on Saturday.

Mrs. A. M. Nisbet, Mr. Walter and Miss Jessie Nisbet were Friday visitors in the district.

Several members and friends of the Mountain View W. I. assembled at the home of Mrs. Birdsell on Thursday last where a very successful meeting was held. During the business session it was decided to commence a layette and a small sum of money was added to the treasury at the wish of the president. No member was able to attend the conference. A very enjoyable social time was spent during the tea hour. The June meeting will be held in the Community Hall.

Honoring Miss Janet Bruce, a June bride elect, Mrs. Ellis Barnes entertained at a kitchen shower at her home on Friday, May 21st. About thirty five ladies were present. Musical selections were given by Mrs. Goldie and the Misses Dorothy Ranton, Doris Friesen, Louise Shultz and Isobel Goldie. Little Alice Bruce and Lyle Shultz, attired as bride and groom, presented the gifts to the bride-elect in a charmingly decorated wash tub. The great variety of useful and beautiful gifts displayed the high esteem in which the guest-of-honor is held. Mrs. Barnes was assisted in serving a dainty luncheon by Mrs. W. Shultz, Mrs. B. St. Clair, Miss Ethel Bruce, Miss Isobel Goldie and Miss Evelyn Barnes.
